Dear Ms. Britt,

This letter is in appreciation of the help that we have received from West Virginia Rural Water Association over the last few months. Jack, Will and Rick were all very helpful, without their help I would still be having to **turn water off** every night and be out at **4:30** every morning **turning it back on**. I am very thankful for the help of your Association and very thankful to your circuit riders.

Thank You,

Michael Stewart
