100 Youngs Street
Scott Depot, WV 25560-9019

Dear Ms. Britt,

On Monday, September 21st 2009, Jack McIntosh came to Moundsville to assist in locating a leak that to this point has been very troublesome to the City of Moundsville. We had to wait till late evening to try to find the leak, because the road that the leak is on is a very heavily traveled road. We appreciate the outstanding service that Jack has provided us time after time without any hesitation. We always appreciate Jack and his outstanding dedication to the craft we all love. We could not be any better without his help. Thank you very much for all your assistance and having Jack available to assist us.

Sincerely,

James F. Woods, Superintendent
Moundsville Water Board
