**Ref: Rural Water Thank-You**

Ms Britt,

This letter is being sent to let you know how honored I was to be nominated by Rural Water Association as Operator of the Year and also to thank you for the assistance that your organization has provided. With the loan of equipment, the City of Paden City has been able to smoke test and flow monitor the collection system, which would have not been possible otherwise. Special thanks to Clay Lutz, Jeff Martin and Calvin Hatfield for the loan of equipment, excellent technical support and for always being available when needed.

Your agency provides an invaluable service to the wastewater industry and I wish you many, many more years of continued operation.

Thank you,

JoAnn Yoho  
Class II Wastewater Operator  
City of Paden City, WV
