July 31, 2010

Debbie Britt, Executive Director
WV Rural Water Association
100 Young Street
Scott Depot, West Virginia 25560

Dear Ms. Britt:

I'm sending this letter to express our gratitude for the West Virginia Rural Water Association and all the things you do for us. Most recently, we had a situation where a line had been separated due to flash flooding. The water was still high and we had several customers out of service because we were unable to locate the problem. Fortunately, Matt Lamp was able to come immediately and provide assistance. He helped us find the problem and stayed until we were certain we would not need further assistance. It is comforting to know there is someone available to help when these situations arise.

So, on behalf of Union Williams Public Service District, our staff and our customers; thank you for being there when we need you. It would be difficult to do all the things we do without your assistance.

Sincerely,

Jerry L. Dotson
General Manager
